

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

Product Number 5000
Product Name PennzSuppress D
Synonyms Dust suppressant
Chemical characterization Liquid.
Manufacturer, importer, supplier American Refining Group, Inc.
 Lubricants and Specialty Products Division
 77 North Kendall Avenue
 Bradford, PA 16701
EMERGENCY TELEPHONE NUMBER CHEMTREC: 1-800-424-9300

2. COMPOSITION/INFORMATION ON INGREDIENTS

CAS	Chemical Name	% Weight	TSCA*	DSL - Canada*
T/S	Resins	50-60	Present	Present
7732-18-5	Water	10-30	Present	Present
T/S	Water soluble anionic surfactant	20-25	XU	Present
T/S	Non-ionic surfactant	1-5	XU	Present

* TSCA - United States - Section 8 (b) Inventory (TSCA)

* DSL - Canada - Domestic Substances List (DSL)

3. HAZARDS IDENTIFICATION

Emergency Overview:

- This product may be irritating to skin, eyes, nose, throat, and lungs. Use all necessary personal protection when handling this material.

Eye contact	<ul style="list-style-type: none"> In concentrated form this product was evaluated as having a toxicity category of IV and no adverse eye reactions were noted at any time during the study. Since the product is not applied in concentrated form but is diluted significantly with water, the diluted product is even less of a concern.
Skin contact	<ul style="list-style-type: none"> Prolonged or repeated exposure may cause irritation.
Inhalation	<ul style="list-style-type: none"> Can cause respiratory tract irritation. Avoid breathing vapors or mists
Ingestion	<ul style="list-style-type: none"> Ingestion may cause nausea, vomiting, and diarrhea.
General advice	<ul style="list-style-type: none"> As with any chemical, use caution when handling product.

4. FIRST AID MEASURES

General advice	<ul style="list-style-type: none"> Immediate medical attention is not required If exposure symptoms persist, seek medical attention. Show this safety data sheet to the doctor in attendance
Skin contact	<ul style="list-style-type: none"> Immediate medical attention is not required Wash off immediately with soap and plenty of water. Seek medical attention if effects persists.
Eye contact	<ul style="list-style-type: none"> Immediately flush with plenty of water. After initial flushing, remove any

	<ul style="list-style-type: none"> contact lenses and continue flushing for at least 15 minutes Keep eye wide open while rinsing If exposure symptoms persist, seek medical attention.
Inhalation	<ul style="list-style-type: none"> Immediate medical attention is not required Move to fresh air in case of accidental inhalation of vapours or decomposition products If exposure symptoms persist, seek medical attention.
Ingestion	<ul style="list-style-type: none"> Do not swallow. Rinse mouth with water and afterwards drink plenty of water. Do not induce vomiting without medical advice Never give anything by mouth to an unconscious person Consult a physician
Notes to physician	<ul style="list-style-type: none"> Treat symptomatically
Protection of first-aiders	<ul style="list-style-type: none"> Use necessary personal protective equipment
Aggravated Medical Conditions	<ul style="list-style-type: none"> Users with skin conditions (eczema, psoriasis, etc.) respiratory conditions (asthma, bronchitis, emphysema, etc.) or with chemical sensitivities should take protective precautions.

5. FIRE-FIGHTING MEASURES

Flash point	<ul style="list-style-type: none"> Not applicable
Suitable extinguishing media	<ul style="list-style-type: none"> carbon dioxide (CO2) water fog alcohol-resistant foam dry chemical
Specific hazards	<ul style="list-style-type: none"> None
Extinguishing media which must not be used for safety reasons	<ul style="list-style-type: none"> Water, except as fog
Special exposure hazards arising from the substance or preparation itself, its combustion products, or released gases	Keep product and empty container away from heat and sources of ignition.
Special protective equipment for firefighters	<ul style="list-style-type: none"> As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear
Specific methods	<ul style="list-style-type: none"> In the event of fire, cool tanks with water spray Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations
NFPA (National Fire Protection Association)	<ul style="list-style-type: none"> Health=1, Fire=0, Reactivity=0, Special=0

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	<ul style="list-style-type: none"> Evacuate personnel to safe areas Keep people away from and upwind of spill/leak Wear personal protective equipment
Environmental precautions	<ul style="list-style-type: none"> Prevent further leakage or spillage if safe to do so Prevent product from entering drains
Methods for cleaning up	<ul style="list-style-type: none"> Dam up Soak up with inert absorbent material Pick up and transfer to properly labelled container for disposal. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container

7. HANDLING AND STORAGE

Handling

Technical measures/Precautions	<ul style="list-style-type: none"> Use only in areas provided with adequate ventilation. Avoid contact with skin, eyes and clothing
---------------------------------------	---

Safe handling advice	<ul style="list-style-type: none"> ● Wear personal protective equipment ● Do not breathe vapours or spray mist. Ensure that ventilation is adequate before using this product. ● Avoid contact with skin and eyes. Take necessary personal protective precautions before using this product.
-----------------------------	---

Storage

Technical measures/Precautions	<ul style="list-style-type: none"> ● Keep containers tightly closed; discard any material that may be contaminated or, which may have changed composition. ● Keep away from heat ● Protect from light ● Keep in properly labelled containers.
Incompatible products	<ul style="list-style-type: none"> ● No information available

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering measures	<ul style="list-style-type: none"> ● Ensure adequate ventilation, especially in confined areas
Personal protective equipment	
Hand protection	<ul style="list-style-type: none"> ● Impervious gloves
Eye protection	<ul style="list-style-type: none"> ● Wear tightly fitting safety goggles or safety glasses with side-shields
Respiratory protection	<ul style="list-style-type: none"> ● In case of insufficient ventilation, wear suitable respiratory equipment
Skin and body protection	<ul style="list-style-type: none"> ● Long sleeved clothing
Hygiene measures	<ul style="list-style-type: none"> ● Handle in accordance with good industrial hygiene and safety practice ● Keep away from food, drink and animal feeding stuffs ● When using, do not eat, drink or smoke
Environmental exposure controls	<ul style="list-style-type: none"> ● No information available

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information

Form	Liquid.
Colour	Brown.
Odour	Hydrocarbon oil.

Important Health Safety and Environmental Information

Boiling Point	>100°C / >212°F
Pour Point	6°C / 43°F
Melting point	-6°C / 21°F
Vapor Pressure	No information available.
Density	8.6 lbs/gallon
Vapour density	No information available.
Water solubility	Insoluble but emulsion can be suspended in water.
Specific Gravity	1.03.

10. STABILITY AND REACTIVITY

Stability	<ul style="list-style-type: none"> ● Stable under normal conditions ● Polymerization does not occur
Conditions to avoid	<ul style="list-style-type: none"> ● Heat, flames and sparks ● Strong oxidizing agents
Materials to avoid	<ul style="list-style-type: none"> ● Incompatible with strong oxidizers, such as hydrogen peroxide, bromine, and chromic acid
Hazardous decomposition products	<ul style="list-style-type: none"> ● When burned :carbon dioxide, carbon monoxide, hydrocarbons
Polymerization	<ul style="list-style-type: none"> ● No information available

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Component Information

The concentrated form of PennzSuppress D has an LD50 of > 30,000 mg/kg, indicating that this product is non-toxic. Since the product is not applied in concentrated form but is diluted significantly with water, the diluted product is even less of a concern.

Product Information

PennzSuppress D has been found to be non-toxic to animal life, non-irritating to eyes, non-carcinogenic, and non-mutagenic.

There are no data to indicate that PennzSuppress D is carcinogenic; however, the Heavy Resins component of PennzSuppress D shares a CAS number with other substances, "extracts of steam-refined and air-refined bitumens," that have been classified as possibly carcinogenic to humans (Group 2B) by the International Agency for Research on Cancer (IARC). However, the heavy resins used in PennzSuppress are neither steam nor air refined; instead they fall in the IARC class, Bitumens-not classifiable as to their carcinogenicity (Group 3). Furthermore, manufacturer's product test data on the heavy resins are below the recognized levels that indicate carcinogenicity or mutagenicity. Further information on results of these screening tests (IP346 and modified Ames) are available from American Refining Group.

12. ECOLOGICAL INFORMATION

Ecotoxicity effects

Non-hazardous to ground water and non-inhibiting to plant growth (EC50 of diluted product = 128,000 mg/kg)

Component Information

Product Information

Aquatic toxicity Low toxicity toward fish. Fathead minnow (chronic 96-hour) 130 mg/L (acute LC50) 510 mg/L. Rainbow trout (chronic 96-hour) 194 mg/L (acute LC50) 913 mg/L.

Other information:

13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products	Dispose of in accordance with local regulations. This product is not characterized as hazardous according to federal regulations (TCLP-SAFE).
Contaminated packaging	Dispose of in accordance with local regulations.

14. TRANSPORT INFORMATION

DOT Not regulated.
UN-No
Proper shipping name
Hazard Class
Packing group
